

Quality Policy

We aim to achieve excellence in all our work and from planning to completion our approach to each job is to apply standards of service that not only meet, but also exceed customer's expectations.

It is the policy of the company to operate a Quality Assurance System that conforms to ISO 9001 for the provision of Electrical Installation, Contracting Services and Control Panel Manufacturing and Design. We are committed to supplying quality services, which meet the specification and requirements of our customers and any other applicable industry requirements. We are also committed to the concept of continual improvement and have established appropriate quality objectives which will help to drive continual improvement.

The company also undertakes to provide adequate training to all management staff and employees to ensure that their competence and commitment are such that the desired quality levels can be achieved and maintained.

All persons in the company are required to understand, implement and maintain the company's quality policy and objectives.

The Quality Policy will be subject to ongoing review in order to ensure that it continues to reflect our requirements.
